

## THE SWACHH BHARAT ABHIYAN

We, the administration, students and teachers have an indomitable belief in the principles, approaches and practices of the Swachh Bharat Abhiyan. The role of students is most vital in the effort to create a cleaner India.

To promote and profess the same, we have collectively endeavoured to engage ourselves in the following practices.

The students of our school actively participated in creating a street play, thereby creating awareness on “NO TO LITTER”. This in turn was a great inspiration to parents, relatives and neighbours. So much so that whenever they travel by road, rail or other means of transport, they try to make sure that they do not throw waste in public places.

Students were also given the task of poster making on **SWACHH BHARATH.**

They were made to sing the SWACHH BHARATH song during the assembly as a part of the Central Government's drive to propagate its SWACHH BHARATH campaign.

“SWACHH BHARATH kaIradha ....” - Song.

Students of **SPRINGDAYS** have taken the pledge to keep the environment neat and clean, to create awareness of cleanliness in India, through the **SWACHH BHARATH ABHIYAN** launched by our Hon'ble Prime Minister Mr. Narendra Modi.

In order to create awareness on cleanliness in the hearts of students, various programmes such as a message on cleanliness, wise thoughts of Mahatma Gandhi, roleplay and speech on cleanliness were given.

The aim of the play was to create the awareness of

1. Keeping the roads, public places also clean along with their houses and surroundings.
2. It's not a single person's responsibility.
3. Along with cleanliness, we should be aware of proper disposal of the garbage.
4. Urging people to re-dedicate themselves to Mahatma Gandhi's favourite principal, 'Cleanliness is next to Godliness', a thought on cleanliness by Gandhiji was read out by a student.

Swachhatha pledge was taken by the students which inspired them to have swachhatha in their activities.

Swachhata Mission Awareness

Students were holding hoardings creating awareness on cleanliness.

‘Keep India clean to let it always green’

‘Clean India disease free India’

‘Come join and pledge together to clean India’

Clean India Green India’

To conclude, SPRINGDAYS SCHOOL(CBSE) goes beyond simply believing and accepting the principles of cleanliness. The school believes that such principles and its teachings should be put into practice. The future generation, along with the adults are collectively responsible for the cleanliness of their home, school, city and nation at large. For, by doing what is required and important, we achieve and uphold the teachings and message of the Swachh Bharat Abhiyan. We work towards a cleaner and greener India.
