

### **National Science Day - 2019**

National Science Day is celebrated in India every year on 28<sup>th</sup> of February to mark the discovery of a phenomenon known as “Raman Effect” for which Sir C. V. Raman won the Nobel Prize in the field of Science for the year 1930. The theme for the year 2019 is “Science for the people and people for Science”.

VIT University along with Sigma Xi, a Scientific Research Society organized an outreach programme for the students of Springdays. It was intended to spread the message about the importance of Science used in the daily life of the people.

Students were familiarised with the different projects in Physics, Chemistry and Technology i.e. the usage of hydrogel materials for storing water, machine learning and obstacle avoider using Arduino.

A quiz session was conducted involving questions from Science and General Knowledge. The students were very interactive and have enthusiastically participated in all the activities. The students were motivated to pursue a career in Science in future.

The session came to an end with a word of acknowledgement from the Vice Principal. The photo gallery of the event follows.....
